Education

University of Nebraska-Lincoln (UNL) August 1996 – August 2003

- Ph.D. Mechanical Engineering, August 2003, GPA 3.96.
 - Dissertation title: “Experimental Analysis of Near-Field Acoustic Scattering by Rigid Spheroidal Objects”, *Advisor: Dr. John P. Barton.*
- M.S. Mechanical Engineering, December 1999, GPA 3.75.
 - Thesis title: “Experiments with a Mass Transfer Analog for the Filling of Stratified Thermal Energy Storage”, *Advisor: Dr. Kelly O. Homan.*

University of Jordan-Amman September 1991 – January 1996

- B.Sc. Mechanical Engineering, January 1996, finished within the top five percent in class.
 - Senior Design Project title: “Measurement of Bond Conductance in Solar Collector Absorber Plates”, *Advisor: Dr. Ali Badran.*

Professional Employment

The University of Texas Rio Grande Valley (UTRGV)	September 2015 – Present
Sr. Associate Dean, College of Engineering and Computer Science	November 2021 – Present
Associate Dean for Research, Graduate Programs, and Special Projects,	
College of Engineering and Computer Science	May 2016 – October 2021
Full Professor, Mechanical Engineering Department	September 2015 – Present
Director, University Transportation Center for Railway Safety (UTCRS)	October 2013 – Present
The University of Texas-Pan American (UTPA)	August 2003 – August 2015
Full Professor, Mechanical Engineering Department	August 2014 – August 2015
Associate Professor, Mechanical Engineering Department	August 2009 – August 2014
Assistant Professor, Mechanical Engineering Department	August 2005 – August 2009
Lecturer, Mechanical Engineering Department	August 2003 – August 2005

Duties Performed:

- Taught 17 different graduate and undergraduate courses in mechanical engineering.
- Supervised several senior design projects each year.
- Chair for 57 Master’s Thesis committees, Co-Chair for one Doctoral Dissertation committee, and served in seven other Thesis committees as member.
- Co-advised the aero-design team for two years.
- Performed duties of Mechanical Engineering Graduate Program Director for eight years.
- Performed duties of Mechanical Engineering Undergraduate Program Director for two years.
- Performed duties of Global Security Studies and Leadership Graduate Program Director for seven years.
- Performed duties of Global Security Studies Undergraduate Minor Advising Director for six years.
- Serving on five departmental committees, eight college committees, and ten university committees.
- Served as **Chair** of the College of Engineering and Computer Science Council for three years.

- Served as **Chair** of the University Admissions Committee for three years.
- Served as **Chair** of the University Graduate Council for two years.
- Served as **Chair** of the University Undergraduate Curriculum Committee for two years.
- Served as **Chair** of the Faculty Merit Subcommittee within the University Merit Task Force.
- Advising 200-300 students each academic year.
- Actively involved in the various undergraduate student mentoring and research engagement programs.

University of Nebraska-Lincoln (UNL)**August 1996 – Present****Adjunct Faculty, Mechanical and Material Engineering Department****Duties Include:****June 2019 – Present**

- Serving in doctoral dissertation committees for graduate students in the department.

Visiting Summer Faculty, Mechanical and Materials Engineering Department**Duties Included:****August 1996 – August 2013**

- Taught six different thermal sciences and engineering mechanics courses.
- Collaborated with faculty in research in the fields of Heat Transfer and Acoustics and Vibrations.

Research Assistant, Mechanical Engineering Department. Duties included:

- March of 2002, provided engineering consulting through UNL for Snyder Industries, Inc. in Lincoln, NE. The project involved conducting heat transfer related testing and modeling.
- July through September of 2001, performed systematic analysis of the electromagnetic interaction of the monochromatic light with aerosol particles of spheroidal and near-spheroidal geometries. The project was funded through a \$25,000 grant from the Naval Research Laboratory (NRL) in Washington DC.
- May of 1998 through September of 2000, worked on a \$100,000 grant from ASHRAE. The project involved studying Stratified Thermal Storage Systems and providing design improvements to increase their efficiency.

Teaching Assistant, Mechanical Engineering Department. Duties included:

- August of 1999 through May of 2003, supervised and instructed the Measurements Laboratory.
- August of 1999 through August of 2003, assisted undergraduate students in their senior design projects.
- August of 1996 through May of 2003, teaching assistant for the Thermodynamics course.
- January of 1997 through May of 1998, instructed the Thermal Fluids Laboratory.

Mathematics, Physics, and Engineering Tutor**September 1991 – August 2003**

- Tutored High School students and University undergraduates in Mathematics, Physics, and Engineering, including Calculus, Statics, Dynamics, Linear Algebra, Strength of Materials, Mechanical Design, Thermodynamics, and Heat Transfer.

Aeroklima, Air Conditioning Systems Design, Thessaloniki, Greece**May 1995 – August 1995****Mechanical Engineer**

- Only student selected to join and contribute to team of professionals in projects to design, build, and install air conditioning systems in large industrial facilities.

Other Research Activities

- Worked on the mechanical design aspects of an NSF funded project as part of a team with faculty from the Biology and Chemistry Departments. A laboratory based PIXE, (PIXE-L), using a ²⁴⁴Cm alpha excitation source, was proposed for the analysis of the concentrations and transport of metal ions in live plants, which is the first of its kind. PIXE-L requires low path-length dimensions in order to minimize the loss of the He²⁺ ions and the fluoresced x-rays. The design of the ²⁴⁴Cm source holder takes into consideration the calculated optimized source-target x-ray detector geometries, the ease of installation of the sources at Oak Ridge National Laboratory (ORNL), and the ease of manipulation while ensuring the necessary radiation protection of the device. The project was funded by NSF through a three year (12/1/03-11/30/06) **\$767,000** grant.

Professional Honors and Awards

- Selected as one of the **2024 NSF PAESMEM Finalists** for outstanding service in STEM mentoring.
- Awarded the **University Excellence Award in Student Mentoring** for the year 2023-2024.
- Awarded the **College Excellence Award in Student Mentoring** for the year 2023-2024.
- Inducted into the **UTRGV Academy of Distinguished Teachers** as a Founding Class Fellow on September 1, 2023.
- Appointed as a **Louis A. Beecherl, Jr. Endowed Professor** in Engineering; Period: September 1, 2017 – August 31, 2026.
- Awarded the **University Excellence Award in Community Engaged Scholarship** for the year 2019-2020.
- Awarded the **University Student Employment Supervisor of the Year Award** for the year 2019-2020.
- The University Transportation Center for Railway Safety (UTCRS) for which I serve as the Founding Director received the inaugural **National CUTC Workforce Development and Technology Transfer Leadership Award** for 2019.
- Awarded the **Outstanding Faculty Award** by the vote of the ME students for the year 2017-2018.
- Appointed as a **Faculty Fellow** for the **Lloyd M. Bentsen, Jr. Endowed Chair** in Engineering; Period: February 1, 2017 – August 31, 2017.
- Appointed as a **Faculty Fellow** for the **Lloyd M. Bentsen, Jr. Endowed Chair** in Engineering; Period: September 1, 2012 – August 31, 2016.

- Awarded the **Dr. Hashim S. Mahdi Outstanding Faculty Award** for the year 2015-2016.
- Awarded the **Outstanding Faculty Award** by the vote of the ME students for Fall 2015.
- Awarded the **2014 Success Profile Award** which recognizes successful student employees' role models.
- Awarded the **Dr. Hashim S. Mahdi Outstanding Faculty Award** for the year 2013-2014.
- Awarded the **University Excellence Award in Teaching** for the year 2012-2013.
- Awarded the **College Excellence Award in Teaching** for the year 2012-2013.
- Awarded the **Dr. Hashim S. Mahdi Outstanding Faculty Award** for the year 2012-2013.
- Selected by the vote of the UTPA Faculty to represent the University in the prestigious **Minnie Stevens Piper Outstanding Teacher Award** for the academic year 2012-2013.
- Awarded the **HESTEC Engineering Symposium Best Poster Award** in 2012.
- Awarded the **University Excellence Award in Mentoring** for the year 2011-2012.
- Awarded the **College Excellence Award in Mentoring** for the year 2011-2012.
- Awarded the **College Excellence Award in Research** for the year 2010-2011.
- Awarded the **HESTEC Science and Engineering Symposium Second Place Poster Award** in 2011.
- Awarded the **Dr. Hashim S. Mahdi Outstanding Faculty Award** for the year 2010-2011.
- Awarded the **HESTEC Science and Engineering Symposium Best Poster Award** in 2010.
- Awarded the **Dean's Engineering Faculty Support Endowment Award** in 2010 for dedication to the students and the University's mission on becoming a premier learner-centered research institution.
- Awarded the **UT Board of Regents' Outstanding Teaching Award** in 2009.
- Awarded the **Dr. Hashim S. Mahdi Outstanding Faculty Award** for the year 2008-2009.
- Awarded the **Outstanding Faculty Award** for the year 2007-2008.
- Awarded the **Outstanding Faculty Award** for the year 2006-2007.
- Awarded the **Outstanding Faculty Mentor Award** for the year 2006-2007.
- Awarded the **Outstanding Faculty Award** for the year 2005-2006.
- Awarded the **Lockheed Martin Outstanding Faculty Award** for the year 2004-2005.
- Awarded the **Martin C. Hemsworth Scholarship** three consecutive years (2000-2002) for outstanding work as a teaching assistant.

Professional Service

- Founding Director of the University Transportation Center for Railway Safety (UTCRS) at UTRGV.
- Founding Director of the NSF CREST Center for Multi-disciplinary Research Excellence in Cyber-Physical Infrastructure Systems (MECIS) at UTRGV.
- Member of the Council of University Transportation Centers (CUTC).
- Member of the Council of University Transportation Centers (CUTC) Executive Committee.
- Member of the CUTC Student Awards Selection Committee.
- One of the four Directors of the Research and Education Division (RED) within the American Road and Transportation Builders Association (ARTBA).
- Member of the TRB Railroad Operating Technologies Committee (AR030).
- Campus Manager for the Dwight David Eisenhower Transportation Fellowship Program (DDETFP) Local Competition held at UTRGV annually.
- Member of the Organizing Committee for the 2024 ASME Joint Rail Conference to be held at the University of South Carolina on May 13-15, and Chair of the Railway Safety Session.
- Guest Editor for a special issue of MDPI Sustainability entitled "Sustainable Study of Railway Engineering and Rail Transportation".
- Member of the External Review Committee for the Department of Energy (DOE) for their Nuclear Energy University Program (NEUP).
- Member of the Editorial Board of the *Journal of Acoustics* (JoA) published by Hapres.
- Member of the Editorial Board of the *Railways 2022* Conference in Mallorca, Spain.

- Member of the Editorial Board of the *Railways 2018* Conference in Barcelona, Spain.
- Member of the Editorial Board for *Journal of Applications and Practices in Engineering Education*.
- Member of the Editorial Board of the *Railways 2014* Conference in Ajaccio, Corsica, France.
- Reviewer for the *International Journal of Heat and Mass Transfer*.
- Reviewer for the *Journal of Thermal Science and Engineering Applications*.
- Reviewer for the *International Journal of Railway Technology*.
- Reviewer for the *Transportation Research Board (TRB)*.
- Reviewer for the *Journal of Transportation Safety & Security*.
- Reviewer for the *Journal of Engineering Tribology*.
- Reviewer for the *Iranian Journal of Science and Technology*.
- Reviewer for the *Transport Research Arena*.
- Reviewer for the *Journal of Dynamic Systems, Measurement and Control*.
- Reviewer for the *SpringerPlus Journal Publications*.
- Reviewer for the *ASME Conference Publications*.
- Reviewer for the *ASEE Conference Publications*.

Skills

- **Computer Skills**
 - FORTRAN, LATEX, MATLAB, MathCad, Maple, Labtech Notebook, GageScope, Engineering Equation Solver (EES), Microsoft Office Software, Axum, AutoCAD, and Xfig.
- **Language Skills**
 - Fluent in English, Greek and Arabic. Conversational and skilled in reading and writing French.
