

WORKSHOP NONLINEAR PARTIAL DIFFERENTIAL EQUATIONS

We are pleased to announce that our school will host the

2019 Workshop on Nonlinear Partial Differential Equations (PDEs) with Interdisciplinary Applications

NOVEMBER 16, 2019

Edinburg Campus

At least two external nonlinear PDE experts, including Dr. Anco and Dr. Pelinovsky, are joining us. Please visit the link below:

<https://www.utrgv.edu/math/news-events/conferences/index.htm>

For more information: <https://faculty.utrgv.edu/eleftherios.gkioulekas/2019-pde-workshop/>

All Faculty and students are invited to present on relevant research. All are welcome to attend this workshop.

The workshop provides a leading forum for disseminating the latest research in the areas of nonlinear PDEs, including qualitative analysis, integrable systems, negative flows, peakons, symmetries and geometry, and nonlinear soliton models, and brings together students, faculty, and visiting scholars from the nonlinear science community to initiate new collaborations and co-operations in their common research fields.

WELCOME TO DELIVER A TALK AT THE WORKSHOP

Please send your Talk title and abstract to:

Dr. Eleftherios Gkioulekas

eleftherios.gkioulekas@utrgv.edu

or

Dr. Zhijun Qiao

zhijun.qiao@utrgv.edu

no later than **Nov 8, 2019**.

WHERE:

EMAGC 2.416

Edinburg Campus
The University of Texas Rio
Grande Valley.

Saturday, Nov. 16, 2019
8:30 AM to 5:30 PM

Workshop Committee

- **Dr. Dambaru Bhatta**
- **Dr. Eleftherios Gkioulekas**
- **Dr. Zhijun Qiao** (Committee Chair)
- **Dr. Vesselin Vatchev**
