Module 1 Recap
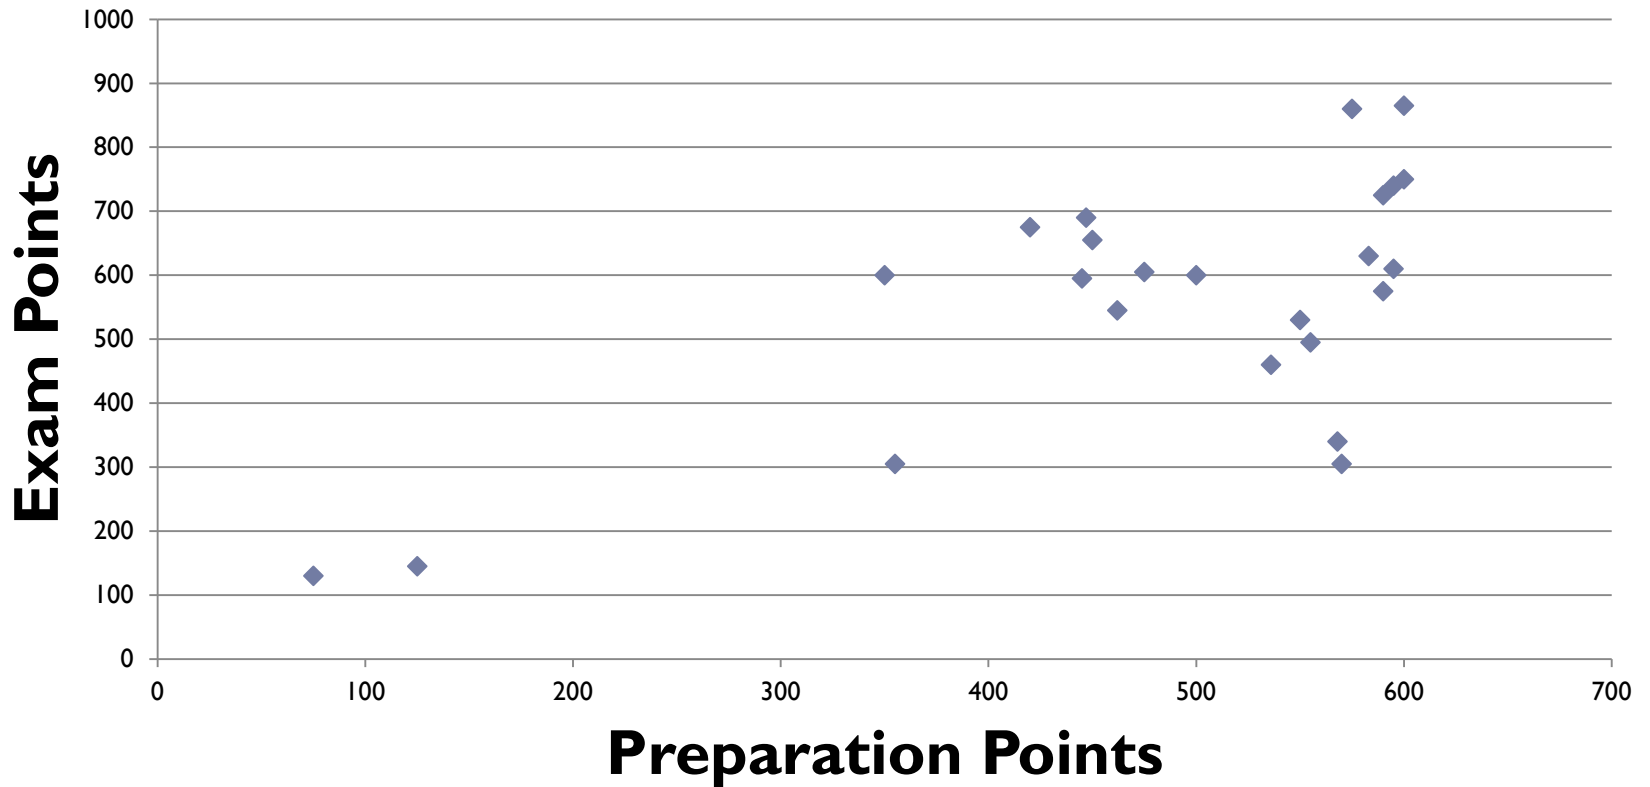

- **800 Preparation Points**
  - 200 still outstanding (Collage, Cipher)
- **800 Exam Points**
- **No Homework this module**
  - 20% of overall points
  - Makes exam look like 50%, but it won't be in the long run

Results

- Median Prep Points: 518/600 (81%, so far)
- Median Exam Points: 600/800 (75%)

Takeaways

- By the numbers
  - More challenging than past first exams (1 extra week)
  - Lower than we want it to be, lower than we expect to end up
  - Happy to de-emphasize with demonstrated upward progress
- The real point: what have you learned?
  - Fundamental programming skills
  - Practice, familiarity, comfort
  - Problem solving: decomposition, simplification, abstraction…

- What's working? What's not working?
  - Mentoring meetings: Hope is not a plan!
