- By far one of the best professors at UTPA! Dr. Lee teaches Astronomy with such passion that every student that takes his class will fall in love with the universe. He is also able to make his class of 50 or more students put away their phones and actually pay attention. Which is not an easy task in this time of technology. Well done Dr. Lee, it was a pleasure being your student. Glad to have had the opportunity.

- I enjoyed class with Mr. Lee, he explained every detail about the lesson plus he would offer office hours to explain it deeply just in case we needed more help. He would also provide the chapter notes and would tell us whats to study, that way we could be ready for the test. The homework was also helpful with our quizzes and we had a program were we could review the chapter and do practice test to get a better idea of what was going to be in the quiz. I had a very good
