< Students' Comments for the Instructor: an *unabridged edition* >

- ☒ A very good professor, he makes you be involved.
- ☒ AMAZING PROFESSOR! Wish there were more passionate professors like him!
- ☒ Amazing teacher! I learned so much from him.
- ☒ Amazing teacher! Mr. Lee motivated me to learn more about astronomy and since then i have grown a passion for it. He was always prepared for lectures and exams, answered any questions and emphasized on visiting his office for any questions. Great teacher.
- ☒ Awesome funny professor, learned a lot
- ☒ Awesome instructor and is very helpful
- ☒ Coming in as a freshman, I am quite glad that I was lucky enough to have Hyun C. Lee as my professor. He has taught me to appreciate the universe in a new perspective. I look forward to taking ASTRO 2 with him.
- ☒ Dr. Lee has been one of the greatest professors I have had and probably will ever have. He made learning so much in class. He also helped us in anyway he could possibly can with our work and exams. He always made time for his students in and out of the classroom. Overall, he's a very excellent professor.
- ☒ Dr. Lee really cares about all student's education. He is always ready to aid you in anything, whether its content related or extracurricular.
- ☒ Excellent professor. Very willing to help all students and shows passion for the subject.
- ☒ Good information
- ☒ Great Professor, I wish I could have him for all my classes
- ☒ Great professor
- ☒ Great professor to my class of 100+ he made sure to let us know that he was always there in case we ever needed him.
- ☒ Great professor!
- ☒ Great professor! Made astronomy incredibly interesting
- ☒ Great professor, great humor, great course.
- ☒ Great professor.
- ☒ Great teacher! He taught very well and in an interesting way.
- ☒ Great teacher, no complaints
- ☒ Had a great time learning with the professor is a great instructor and gets you to get more involved. He makes the class more interesting.
- ☒ He can be a little confusing when it comes to delivering information, but stresses that he is there to help.
- ☒ He is an excellent Astronomy professor. Explained everything proficiently and made it very fun and easy to understand. By far my favorite professor this semester.
- ☒ He is an excellent professor. I highly recommend him.
- ☒ He was a great professor
- ☒ His exams were kind of rough. I wish we had more review questions available to us that were similar to the exams he gives us. Yes, we have Pearson Mastering and Studying Area but none of those had similar questions like the ones in his exams.
- ☒ I learned so much in his class, really amazing teacher made his class interesting.
- ☒ I really enjoyed your course, and I must confess the way you taught Astronomy got me very interested in the subject. I know look up at the sky and take in all the beautiful stars and the moon phases as well. I loved your class, I am looking forward to taking the second part of Astronomy with you!
- ☒ I think Hyun C. Lee is an outstanding teacher! I love how he gives us attention when we get A's, it makes me work harder.

Mr Hyun C Lee is a really good professor he explains everything really clear and its always there To help you.
Mr.Lee has probably been the best teacher I've had my whole 2 years at the university.
Professor Lee explained every assignment effectively. He also informed us about the current and future astrological events. The professor also reminded us of his office hours for any questions that we may have had.
Professor Lee was an excellent instructor. He always arrived to class on time, had everything prepared, and actually stuck to the dates on the syllabus. He was also a very good teacher and is very funny. I learned a lot.
She was a very good teacher and I would take her again.
The most enjoyable professor I've ever had. Not only does he teach the course material thoroughly, but he makes sure to connect with each and every student in class and assist everyone in achieving academic success.
This class is the best. Professor is great, funny, and clear. The material is interesting.
This instructor is awe-inspiring, his lectures are interesting and intriguing. Very passionate about astronomy and as a result I have too become very interested in astronomy.
This teacher was one of the best yet. He truly cares about his students and is available when you have a question. Really understood his material and made this class really fun. Thank you for professors like him.
Very encouraging professor. Absolutely professional, who can make learning rewarding and enjoyable.
Very good Professor. He is very helpful. Keep up the good job
Very good professor, really knows his stuff.
Very good professor.
Very good professor. Loved the way he taught and brought excitement to class.
Was always very organized, and gave us daily reminders of assignments.
awesome professor
he makes astronomy fun, make sure you visit his office and he's always willing to help, i will be taking him again for astronomy 1402!
this class was great.
very funny teacher amusing never bored
would highly recommend this professor to incoming freshman or anyone looking to take ASTR 1401

- ☒ Amazing professor! Perfect teaching strategies, engages all students in class and makes the whole course fun. I completed loved this course and the way it was taught.
- ☒ Awesome class
- ☒ Awesome class!!
- ☒ Can't wait to take astronomy 2 . I learned so much!
- ☒ Dr. Hyun-Chul Lee was very helpful and very attentive in providing any assistance that his students needed.
- ☒ Excelent professor, i truly enjoyed taking his class, explains every topic throughout the semester, and was always available for students
- ☒ Great instructor.
- ☒ Great professor!
- ☒ Great professor! Really enjoys what he's doing and cares about us learning and getting good grades.
- ☒ Great teacher!!
- ☒ It was a good class, Mr. Lee thank you for the great semester, have a great summer - Zach
- ☒ Loved this class, professor was very straight forward and always helpful.
- ☒ Nothing bad to say, professor was always prepared for class and available.
- ☒ Professor Lee always provided us with lesson information in a timely manner. He encouraged students to visit his office before each class period, and even made a check list of students to see him. he is a great instructor and very passionate about Astronomy. I was pleased to have him as my professor.
- ☒ Professor Lee is an excellent professor, when he teaches the class he teaches it with joy and makes me want to learn more each day. He is very dedicated to his job and a very good professor.
- ☒ The best astronomy teacher, he was always prepare to teach the class. excellent class and teacher
- ☒ Very good professor. He always came to class and taught us exactly what we needed to know. Will definitely be taking Astronomy 2 with him.
- ☒ Very helpful to students!
- ☒ great
- ☒ highly recommend this professor!
- ☒ i very much enjoyed your class and style of teaching, you made it fun to be in class and that is something that is lacking in a lot of professors.
- ☒ thank you for your efforts

- ☒ Best professor I have taken thus far. He really excels in what he teaches and I have tried my hardest and got amazing grades.
- ☒ Best professor I've had in my two years of being a student here
- ☒ Clear and fair teacher. I enjoyed this class even though I didn't care for the topic, he made everything interesting! Great Class.
- ☒ Dr. Lee is an excellent professor because he really cares about his students learning the material. I would recommend for anyone to take his class because of how much he cares for his students.
- ☒ Dr. Lee is the best teacher for astronomy and is my favorite teacher by far. He cares for his students and is open to answer any questions. I would strongly recommend Dr. Lee to anyone looking for a great astronomy professor.
- ☒ Good
- ☒ Great Professor!
- ☒ Hard to understand with his thick accent. Constantly tries to get you to come to office hours which are at the most inconvenient times. Overall an ok class.
- ☒ He is very clear on what you need to study.
- ☒ Overall very good professor. Really enjoyed his class.
- ☒ Professor Lee is very helpful and knows much about astronomy. He learns the names of every student which makes you feel an important part of the class. He tells us about the current events that has to do about astronomy and shows us about NASA's current topics.
- ☒ Very good professor. keep inspiring the future astronomers
- ☒ Very informative professor that only uses powerpoints to complement his teaching, not the other way around. He is very informed and is a fun professor to have. No criticisms at all.
- ☒ Wonderful professor. The passion that he has in the subject helps students to engage in better learning and be more attentive during the lecture.
- ☒ You are an amazing professor. I learned a whole lot in this course liked the fact that you actually cared about your students. Keep up the good work.

👍 Dr. Lee was AWESOME!!! He explained every detail of what we learned in class with such enthusiasm, it was easy to remember and understand. Dr. Lee also encouraged us to further our learning and understanding through communication. Either by a quick informative office visit, or emailing about any questions or concerns we had with the chapters we were going over. I learned so much that I was able to apply in my everyday life and new things about the universe. I LOVED GOING TO CLASS.

👍 GREAT PROFESSOR!!! I came in thinking ASTR was going to be boring but Dr. Lee has a great passion for what he does that it rubs off on his students! He is what makes UTRGV an awesome place to learn!! I would definitely take this course all over again.

Amazing professor!

(I know research ASTR related topics on my own time)

THANKS DR LEE !

👍 GREAT PROFESSOR. Haven't taken a non-communication course in quite a while and science isn't my best subject, but Dr. Lee has made astronomy interesting and relevant. He cares about his students and is ALWAYS available in his office if we need to speak with him. He tries his best to help us succeed in the course and he makes the material fun. I have thoroughly enjoyed, not only learning about astronomy, but learning from Dr. Lee in particular. The knowledge I have acquired will benefit me always

👍 Good instructor really cares about his students and what he teaches

👍 Great professor!!

👍 Great work with everything, specially at letting the student know you were there for them, for anything tht they needed, i had fun in your class, and learned alot about space and astronomy that even i didnt know, many thanks.

👍 He really shows his passion for astronomy and he makes a great job spending time with students during his office hours

👍 Overall, Dr. Lee has been an outstanding professor and the passion he has for the subject matter was very contagious.

👍 The professor is very passionate about the subject and he transmits his passion and fascination for astronomy in the way he leads his lectures like a story telling.

👍 Dr. Hyun Lee was an amazing instructor! I really have nothing negative to say about him or his teaching methods, he makes class both enjoyable and educational

👍 Dr. Lee is probably the best professor I've had in my four and a half years at this university--and I adore the ones in my actual theatre major. Lee has an incomparable ability to make you want to do well in his class, to make him happy and to learn more about the endlessly intriguing (who knew) topic of astronomy. The only times I haven't done well have been my fault only, and yet he is always so understanding. This man knows what being a teacher is all about.

👍 I LOVED ASTRONOMY BECAUSE OF THIS PROFFEDOR!

👍 I really enjoyed Professor Lee's class. I would have liked to take 1402 but this is my last science. Keep up the great work professor Lee!

👍 Instructor was great with teaching astronomy! I learned a lot throughout the semester

👍 It is clear that Lee loves what he does. He cares about the students and I have never had any problems trying to get ahold of him. He makes his class very straight forward so you always know what to expect when you walk into the classroom. It is also a plus that he is funny. I personally do not like Astronomy as a subject, but he really tries to engage the students.

👍 More than excellent professor!

👍 Takes his teaching to another level but gets all students involved with teaching.

👍 This class was a lot more interesting and fun than I thought it would be

👍 Very Energetic, and a Great Professor over all.

👍 Very passionate about subject in question, very engaging, and presents information in an easy to digest format.

👍 one of the best professors ive ever had!! he is so passionate about his job and he is very knowledgable about topics. Professor Hyun is makes himself available for his students in schedules very convenient.

- 👍 Dr. Lee is perfect. Everyone who is lucky enough to have him for ASTR I makes sure to take part II with him as well. As difficult as it is for me to pay attention in any class, Dr. Lee makes it easy. He is intriguing and humorous and overall just wonderful to learn from, which makes being in his classes a breeze. He has a way of making students want to learn and want to do well in his class. I know I am personally always scared to disappoint him because I want him to be happy. He's awesome.
- 👍 Dr. Lee was well prepared for every class and expected the highest standards from his students. He is more like a supervisor in the corporate world that the students will encounter than 99% of the other instructors I have met at UTRGV. I believe that this is important since the University is supposed to be preparing students to enter the work force upon graduating.
- 👍 Fantastic professor
- 👍 Great professor
- 👍 Great professor!
- 👍 Great professor. Always available for any questions or concerns I may have.
- 👍 He knows what he is talking about and definitely loves what he is teaching. One of the good professors.
- 👍 Hyun Lee was a very good professor indeed. His classes were interesting and the material was taught in a well rounded way, and he cares about his students and I like that. No complaints at all.
- 👍 I liked this class a lot. I enjoyed the lectures every time and learned a lot about our universe.
- 👍 Mr. Lee is a great professor who is always there for his students and makes sure everyone is on top of things. And is great and projecting his voice so that everyone can hear him. And he gives chances to those who don't always do so well.
- 👍 Professor Lee was one of my favorite professors this semester. He always makes sure that you are learning and understanding the concept that he is going over. He always states that if you have any questions and don't want to ask in class, to go into his office and ask. He usually wants to hear any good news you have, or if you have problems he will find a way to help you out. I feel that everyone should find the opportunity to take one of his courses.
- 👍 Thank you for teaching me how grand and important life is, so many wonders and beauty.
- 👍 The instructor was well prepared and kept up with the dates on the syllabus, as well as assignments.
- 👍 The professor did their role in teaching very well.
- 👍 Would definitely take again, one of my favorite professors.
- 👍 Yes
- 👍 You can tell by the first lecture that he has a true passion for educating and astronomy. Always available for the students to go to his office for any questions or concerns.
- 👍 great
- 👍 great instructor
- 👍 great professor
- 👍 great teacher

- ☒ Amazing professor and he cares about his students
- ☒ Amazing professor, I could tell he loves what he teaches and is very passionate about it. Helps students with whatever they need, and very nice and kind hearted. I'm glad I had him this year. Truly a professor I will never forget.
- ☒ Can go overboard on humiliating students.
- ☒ Dr. Lee is a great professor. He genuinely cares if the students learn the material correctly and have an interest in the subject in the future.
- ☒ Dr. Lee is a great professor. He wants you to become more involved in the class and the subject so he is always encouraging you. He also responded the emails very fast, and that's very important. I enjoyed his class.
- ☒ Great Professor
- ☒ Great Professor.
- ☒ Great detail in planning, cares for students, office always open. Great professor.
- ☒ Great professor! Really funny, and even offers extra credit.
- ☒ Great professor, I enjoyed his lectures and his class overall. Inspired me to want to teach astronomy in some way shape or form.
- ☒ Great professor, available most of the times. Encourage students to go to his office
- ☒ Great professor. Encourages studying, learning outside of classroom. Encourages creativity, as well as communication between the professor and the student.
- ☒ He is a strict but good professor and wants every student to pass with an A although he always reinstates that it's our part to take initiatives in succeeding in his class. He also encourages students to like at every day objects and know why they appear or are that way. He is a great professor overall and cares for his students. He cares so much that he knows almost every students name and when they are absent.
- ☒ He is so enthusiastic and caring. He takes the time out of his own day to learn every one of his students' names, and makes sure they are doing well. A super teacher.
- ☒ He is very knowledgeable of his content. Highly recommend!
- ☒ He talks very slowly and class time gets disrupted for a whole minute if someone comes in late.
- ☒ He was a great professor that instructed me on the way the universe works
- ☒ Overall you were an amazing teacher, because you tried to make us pass your class with extra credit and would help us with our study guides.
- ☒ Such good professor, always encourages his students to visit his office if they have question regarding the class or the lecture.
- ☒ This class is interesting and fun.
- ☒ Your class is really good, fun, and interesting
- ☒ an amazing professor that made my love for astronomy go beyond this world! (no pun intended)

Amazing professor.

Dr. Lee is a spectacular professor! I enjoyed his class so much and I like how passionate he is about Astronomy!

Dr. Lee was an excellent astronomy professor for this Fall 2018 semester. He always made his office hours available to the whole class. He brought positive energy to the classroom by his pleasant smiles. I really enjoyed his class lectures because in the beginning of each class, he would always show us the astronomy picture of the day which was my favorite part of his class. He was such a well-organized professor. Hoping the best for his future semesters in his other classes here at UTRGV.

Excellent professor who loves his profession and loves his students even more. Very patient and caring, Dr. Lee demonstrates what it is to be the ideal professor. Always engaging with his students and making sure they are focused on the task at hand. With out a doubt, one of the best professors I have ever taken. Thank you.

Great Professor!

Great experience this semester, he made me enjoy astronomy.Would definitely recommend.

Great professor!

Great professor!

He is a great professor. He really cares about his students and wants us to learn. He is very helpful. I would without a doubt take him again!

He was very motivating instructor who cared about his students and was always available when anyone needed him. He was never rude towards anyone and was pretty straight forward, overall great professor.

I really enjoyed your class this semester Dr.Lee! :)

Lectures are explained in great detail. Professor is very helpful and understanding!

Lectures were good

Outstanding job. Keep it up.

Super prepared, always available and concise in his teaching

Thanks for helping me achieve my goals and for all your patience

The professor really showed that he was there to teach and to teach only which is good of him.

The instructor was prepared to teach for each instructional activity.	33				3 (9%)	30 (91%)	4.91	0.29
The instructor communicated information effectively.	33				6 (18%)	27 (82%)	4.82	0.39
The instructor encouraged me to take an active role in my own learning.	33			3 (9%)	3 (9%)	27 (82%)	4.73	0.62
The instructor was available either electronically or in person.	33				5 (15%)	28 (85%)	4.85	0.36

- ☒ Always encouraging students to pass by his office. Very professional
- ☒ An amazing professor. Loved every second of his class.
- ☒ Dr. Lee is very effective in communicating the information
- ☒ Dr. Lee is a really good professor he made sure students were paying attention and not talking or distracting others and can even remember everyones names and knows who his students are.
- ☒ Dr. Lee is so knowledgeable and always readily available. He's a great professor and with a great sense of humor. I thoroughly enjoyed taking 1402 with him this semester.
- ☒ Fantastic instructor. Made learning easy and fun. He was always available and highly encouraged visitng his office hours which made me feel more welcomed to do so. The fastest response by email from any other professor I have ever had and I am a Senior so have had my fair share of professors.
- ☒ Great Professor!
- ☒ Great instructor!
- ☒ Great professor!
- ☒ He was a great instructor that truly liked what he was teaching
- ☒ Hyun Chul Lee is an excellent professor. Very thorough and clear with his lectures. He makes astronomy interesting and accessible to the student.
- ☒ I enjoyed the class it was really awesome to learn about what is out there, outside our planet. I am interested in what could be out there and Mr. Lee did a good job explaining and making the class exciting.
- ☒ I give props to his lectures, easy to understand and interesting.
- ☒ It was a fun class.
- ☒ Very dedicated professor.

< CURRICULUM VITAE >

Hyun-chul Lee

1201 W. University Drive

Phone: 1-956-665-5374

Department of Physics and Astronomy

Fax: 1-956-665-2423

The University of Texas Rio Grande Valley

E-mail: hyun.lee@utrgv.edu

Edinburg, TX 78539-2999

Homepage: <http://faculty.utrgv.edu/hyun.lee>

Education

2001 Ph.D., Astronomy and Space Science, Yonsei University (South Korea)

Adviser: Professor Young-Wook Lee

Title: "Spectrophotometric Evolution of Old Stellar Systems"

1993 M.Sc, Astronomy, University of Washington

1990 B.Sc., Astronomy & Meteorology, Minor in Physics, Yonsei University

Employment History

2015 – **Full-time Lecturer III** at the University of Texas Rio Grande Valley

2009 – 2015 **Full-time Lecturer I, II** at the University of Texas – Pan American

(**PI of two NASA HST projects, Co-I of NASA Education project**)

2007 – 2009 **Post-Doctoral Research Associate** working with John Blakeslee

at Washington State University (**NASA HST project**)

2004 – 2007 **Post-Doctoral Research Associate** working with Guy Worthey

at Washington State University (**NSF AAG/CAREER project**)

2004 **Research Associate** at the Center for Space Astrophysics,

Yonsei University in Seoul, Korea (**NASA GALEX project**)

- 2003 **Australian Research Council Linkage International Fellowship**
 Post-Doc at the Centre for Astrophysics and Supercomputing,
 Swinburne University in Melbourne, Australia
- 2002 **KOSEF Fellowship** Post-Doc at the Centre for Astrophysics
 Swinburne University in Melbourne, Australia
- 2001 **NASA GALEX Post-Doc** at the Center for Space Astrophysics,
 Yonsei University in Seoul, Korea
- 1997 – 2000 **NASA GALEX Research Scientist**, at the Center for Space Astrophysics,
 Yonsei University in Seoul, Korea
- 1996 **Part-time Lecturer** at Chungbuk National University,
 Korea University, Sejong University, and Duksung Women's University
- 1990 – 1993 **Teaching Assistant** at the Department of Astronomy,
 University of Washington in Seattle, USA

Fellowships and Awards

- 2018 – The UTRGV HIGH Scholars Program: 1st Place in Physics and Astronomy Discipline
- 2016 – The UTRGV HIGH Scholars Program: 1st and 2nd Place in Astronomy Discipline
- 2018, 2017, 2015 – Minnie Stevens Piper Award Nominee
- 2017, 2016, 2015, 2014 – The UT System Regents' Outstanding Teaching Award Nominee
- 2018, 2017, 2016 – The UTRGV Faculty Excellence Award in Teaching Nominee
- 2017 – The Astronomical Society of Pacific Richard Emmons Teaching Award Nominee
- 2012 – Dean's Outstanding Achievement Award
- 2003 – ARC (Australian Research Council) Linkage International Fellowship
- 2002 – KOSEF (Korean Science and Engineering Foundation) Fellowship
- 2001 – Prominent PhD dissertation Award (Yonsei University)

Professional Affiliations

Society of Advancing Chicanos/Hispanics & Native Americans in Science: Full Member Since 2016

International Astronomical Union (IAU): Full Member Since 2012

American Astronomical Society (AAS): Full Member Since 2005

Astronomical Society of Pacific (ASP): Full Member Since 2016

Korean-American Scientists and Engineers Association: Full Member Since 2006

Korean Astronomical Society (KAS): Full Member Since 1996

Korean Space Science Society (KSSS): Full Member Since 1996

Directed Student Learning

Undergraduate Supervised Research, " Understanding the Milky Way Galaxy Using the James Webb Space Telescope and the Gaia," Department of Physics and Astronomy, (October 2018 – April 2019) *Amanda Champion*

Undergraduate Supervised Research, " Globular Clusters in the Milky Way Galaxy," Department of Political Science, (October 2017 - April 2018) *Ivana Pena*

Undergraduate Supervised Research, "Age, Distance, and Reddening of Star Clusters Using the Hubble Space Telescope Infrared Color-Magnitude Diagrams," Department of Political Science, (October 2016 - April 2017) *Jessica Garza*

Undergraduate Supervised Research, "Effects of Age and Metallicity of Giant Stars," Department of Literatures and Cultural Studies, (February 2015 - August 2015) Daisy Raya

Undergraduate Supervised Research, "Stellar Populations of 16 Galaxies based on HST observations," Department of Literatures and Cultural Studies, (October 2013 - August 2014) *Victoria Le Grice*

Undergraduate Supervised Research, "Comparison of NASA HST WFC3/IR," Department of Physics and Astronomy, (October 2012 - August 2013) *Juan Guzman*

Contract, Grants and Sponsored Research

Funded Grant

Lee, H.-C. (PI), "Calibration of Surface Brightness Fluctuations for WFC3/IR," Sponsored by NASA/STScI, Federal, \$51,075.00. (June 30, 2013).

Research Interests

Chemical Enrichment and Star Formation Histories of Galaxies:

From Resolved Nearby Galaxies To Unresolved High-z Galaxies

Faculty Mentor, UTRGV HIGH Scholars Program. (June - August 2016, June - August 2018).

Guest Speaker, Discover UTRGV. (February 20, 2016).

Science Judge, 2016 US DOE Regional Science Bowl. (February 6, 2016).

Grant Proposal Reviewer, Internal, URI Review Panel. (September 10, 2015 - October 10, 2015).

Committee Member, Veterans Advisory Council. (September 2011 - August 2015).

Professional Service

Reviewer, Journal Article, Monthly Notices of Royal Astronomical Society. (December 2014).

Grant Evaluator, External, NSF Panel Review, Washington DC. (January 2015).

Public Service

Guest Speaker, EEHS Math & Science Speaker Series, Edcouch/Elsa. (September 2, 2016).

Guest Speaker, Edinburg Girl Scouts, Edinburg, TX. (May 31, 2016).

Guest Speaker, Cathey Middle School Career Day, McAllen, TX. (February 12, 2016).

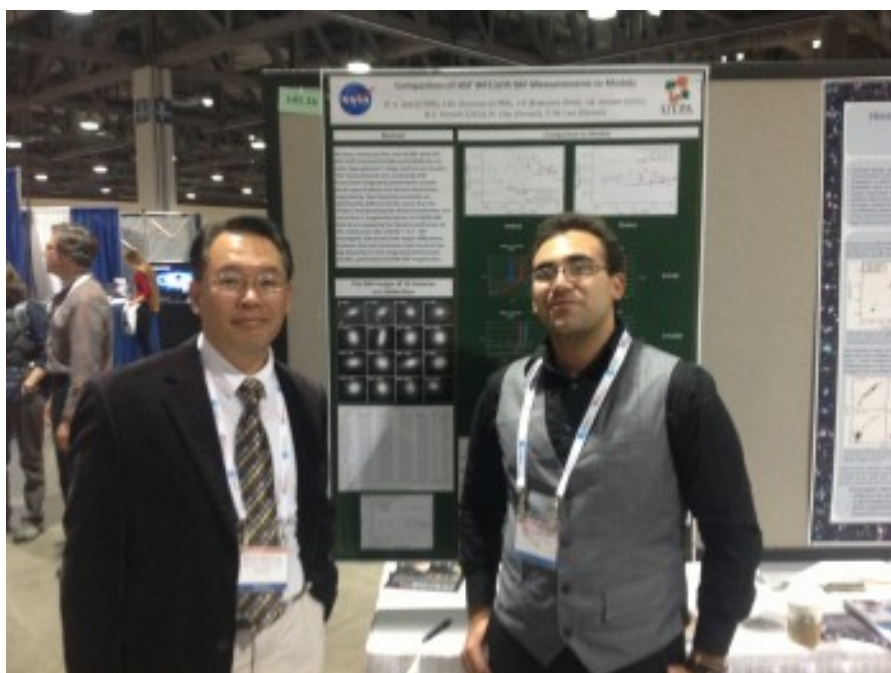

Officer, President, McAllen Korean Golf Association, (July 2013 - December 2014).

Captain of the Missionary Team, McAllen Korean Church, Pharr, TX. (July 2010 – December 2017).

< Evidence of Academic-Related Interaction with UG Students >

I have provided cutting edge research opportunities to more than ten undergraduate students through my own NASA *Hubble Space Telescope* Research Grant, Center for STEM Research Scholarship Program, NSF-LSAMP Program, and the UTPA Undergraduate Research Initiative (URI) Program and the UTRGV Engaged Scholar Award Program.

The picture in the below shows the 221st **American Astronomical Society (AAS)** Meeting in Long Beach, CA, January, 2013. Presenting the Research Outcome with Mr. Juan Guzman (Physics Major and Astronomy Minor) through the Undergraduate Research Initiative grant, Center for STEM Research Scholarship, and my own NASA *Hubble Space Telescope* grant. He is now a Computer Science Major graduate student at the UTRGV.

Victoria Le Grice (English Major and Astronomy Minor) also successfully conducted the astronomical research with me through the URI grant and presented the outcome at the 223rd **American Astronomical Society (AAS)** Meeting in Washington, DC, January 2014. She is now a graduate student at Texas State University. Roxxie Mann (Civil Engineering Major) worked with me through the **NSF-LSAMP** Program and presented her research outcome at Arizona State University. Daisy Raya, Genesis Moreno, Stephanie Segura, and Stephanie Reyes also worked with me through the UTPA Undergraduate Research Initiative (URI) grant. They were all my former students in ASTR 1401 and/or ASTR 1402 classes. Recently, Jessica Garza with the Engaged Scholar Award (ESA) has carried out the astrophysical research with me and presented the outcome at the 229th AAS Meeting in Grapevine, TX, January 2017. The other co-authors are three high school students who worked with me in 2016 Summer as the **UTRGV HIGH scholar program**. Ivana Pena and Amanda Champion are currently working with me under the ESA and Mr. Kunaal Jha received the 1st place award at the 2018 UTRGV HIGH scholar program.
