HTML ASSIGNMENT

Your assignment for the HTML portion of these presentations is the following.

Create a personal webpage using HTML5 from scratch. Your webpage must include the following elements:

- Your name at the top of the page as an <h1> heading

- A paragraph about yourself

- A list of classes you are taking this semester displayed as an HTML unordered list.

- Links to at least two of your favorite websites

Please save your file as Lastname_Firstname.html and send it to ecommerce@castroabraham.com
