

**ADVANCED NETWORKING  
DR. ABRAHAM**

**LAB ASSIGNMENT 2**

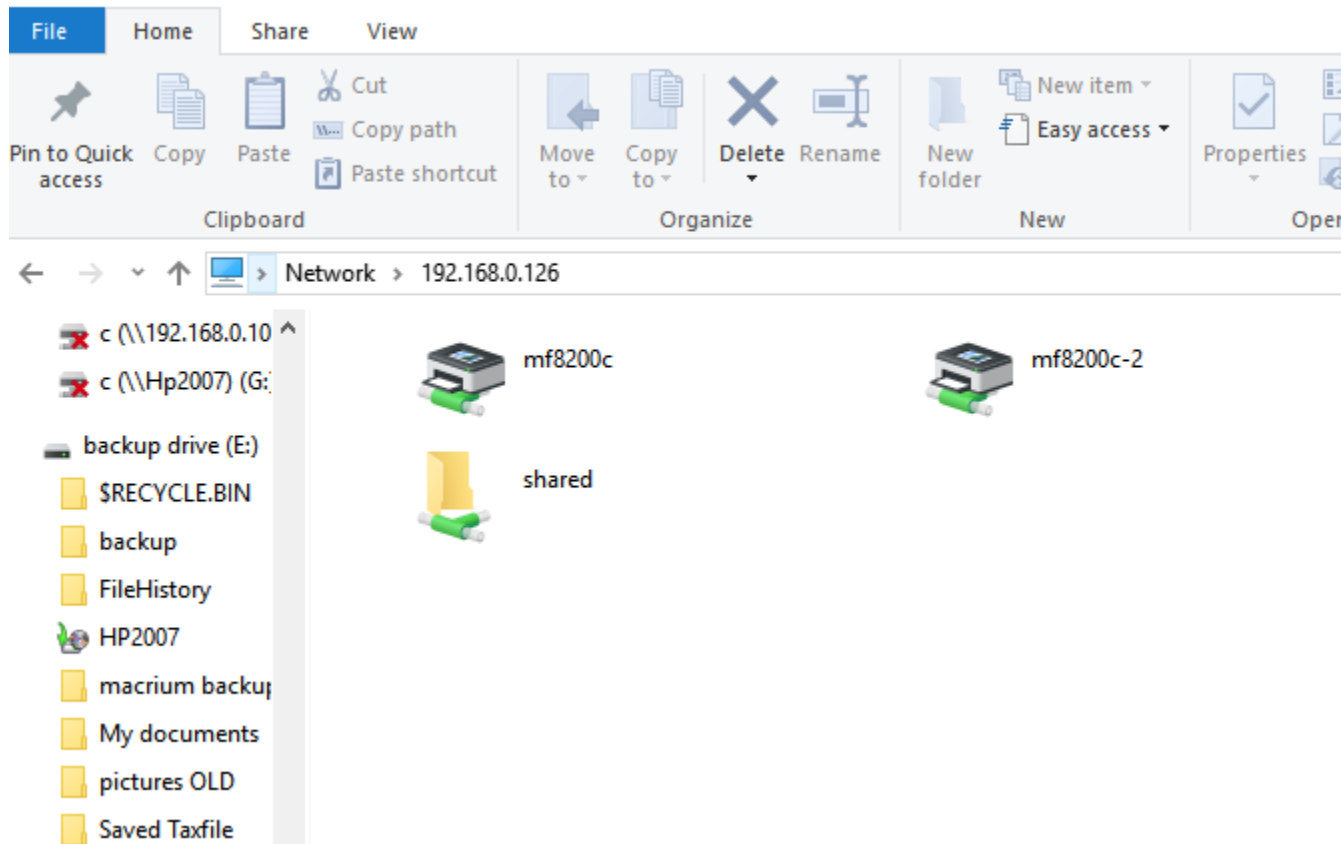

**DATE DUE: Check Blackboard**

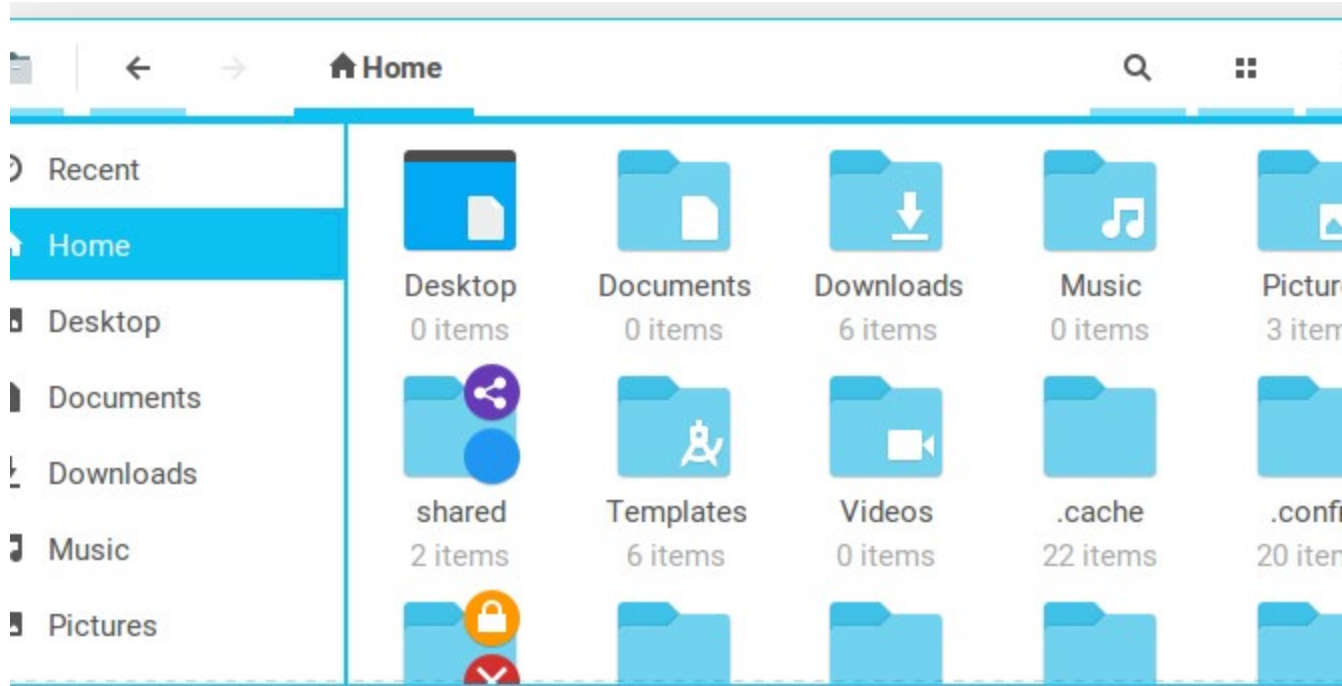

**Dear Students: I spoke about this assignment in class. Main purpose is to share files between Linux and your host machine. Please note: **DON'T USE VIRTUALBOX SHARE** (no points for virtualBox share).**

Install Samba and make sure files can be shared between (both direction) Linux and Windows in the host machine. If your host machine is not Windows based, you may need to create a virtual windows machine.

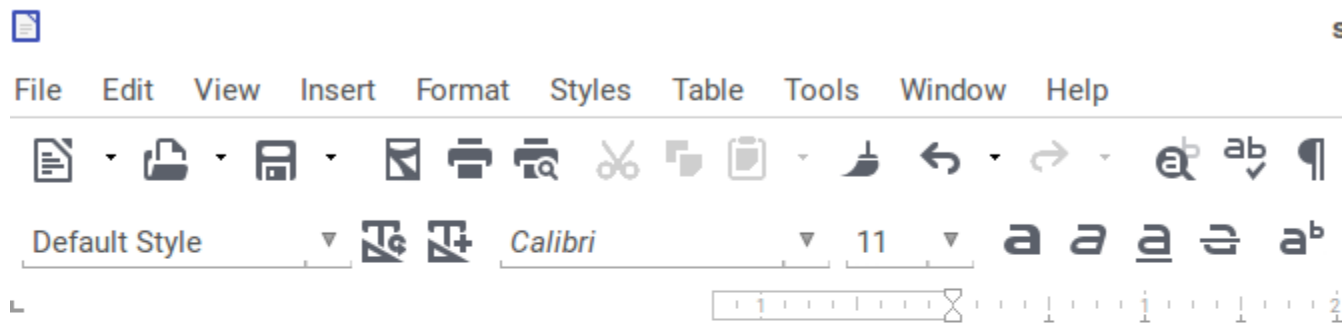

What to submit: Please write description of what you had to do to get the files shared and please submit directories showing the shared folder and open the file using word. Also display contents of the files shared.
